## CAREER OBJECTIVE

Highly motivated professional with proven analytical, critical thinking, and management skills. Seeking to leverage the interpersonal experience and results-oriented mindset that were earned as an Officer in U.S. Navy to learn and create innovative solutions in a tech-related or engineering field.

## COMPUTER SCIENCE STUDENT

*Oregon State University Sep 2021 - Present*

- Online program designed to accelerate the transition of students switching to Computer Science by removing all non-CS related coursework. Graduation Date: Mar 2023
- <https://github.com/gilmartd/Gilmartin-Portfolio>

## ALL-SOURCE INTELLIGENCE ANALYST

*Office of Naval Intelligence Oct 2018 - Sep 2021*

- Screened and analyzed information for intelligence value in support of fleet, joint, and national level operating forces and staffs enabling decision making at the highest levels of the US Navy. Subject Matter Expert in the Western Pacific region.
- Presented 40 intelligence briefs to audiences ranging from small executive-level wargames of 20 people to fleet symposiums of over 100 operators. My briefings directly contributed to US Navy tactics and planning for training facilities and Carrier Strike Groups alike.
- Developed and built relationships with National and foreign government representatives that ensured ONI analytic products led to actionable, international naval coordination.

## SURFACE WARFARE OFFICER

*U.S. Navy Jun 2014 – Jun 2022*

- Provided operational and tactical direction that ensured 20 Sailors were effective at doctrine-related procedures for combat operations.
- Responsible for leading large and small teams in the Middle East, Pacific, and South America in three separate deployments.
- Completed extensive training on technical naval systems that were critical to the safety and combat effectiveness of a billion USD Navy vessel.

## DIVISION OFFICER

*U.S. Navy Jun 2014 - Sep 2018*

- Lead and managed a team of 20 sailors through operations, maintenance, and training such as live-fire Naval Surface Gunfire Support, Small Craft Action Team gunshoots, and Small Arms ranges.
- Managed the firearm qualification program including over 500 firearm qualifications for 400 personnel and the maintenance of 70 firearms. My leadership and training program enhanced the readiness of the ship and led to expanded watch sections for ship personnel.

## SAFETY OFFICER

*U.S. Navy Sep 2016 - Sep 2018*

- Analyzed methods, practice, criteria and regulations to discover unsafe areas and recommend corrective actions for sailor safety.
- Managed 13 ship safety programs ranging from motorcycle safety to heat stress. Managed multiple departments throughout the ship to pass a Congressional material inspection survey and earned the Commander Naval Surface Force Ship Safety Yellow "E" two years in a row.
